

GALLMET®-M - A blend of natural bile acids and herbs to maintain **healthy digestive function**

FOOD SUPPLEMENT

Packaging: 60 capsules

Net weight: 27g

Natural source ox bile supports and supplements the bile production of the liver and bile flow and so contributes to maintaining a healthy digestive system.

Peppermint particularly supports intestinal microflora, white horehound helps to relax the gastrointestinal tract and maintain liver and gallbladder health. Fennel and liquorice aid digestion.

Ingredients: Freeze-dried ox bile; *bulking agent:* microcrystalline cellulose; *capsule shell:* hydroxypropyl methylcellulose; *herbs:* peppermint leaf (*mentha piperita*), white horehound (*marrubium vulgare*), marshmallow root (*althaea officinalis*), liquorice root (*glycyrrhiza glabra*), fennel (*foeniculum vulgare*); *anticaking agent:* colloidal silicon dioxide; *capsule shell:* gellan gum.

Ingredients per day	Number of capsules					
	1	2	3	4	5	6
Bile acids (mg)	100	200	300	400	500	600
Mentha piperita extract (mg)	10	20	30	40	50	60
Marrubium vulgare extract (mg)	7,5	15	22,5	30	37,5	45
Althaea officinalis extract (mg)	7,5	15	22,5	30	37,5	45
Glycyrrhiza glabra extract (mg)	7,5	15	22,5	30	37,5	45
Foeniculum vulgare extract (mg)	5	10	15	20	25	30

Recommended intake: take 1-2 capsules before breakfast, before lunch and before dinner. You can take up to 6 capsules per day according to your requirements. Do not exceed the recommended intake.

Food supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle.

Slight diarrhoea and nausea may occur in the first few days.

Warning: Do not take if pregnant or if you have bilious attacks, or jaundice.

As with other food supplements, consult your doctor before taking this product if you are already taking any other medication.

Best before End: see side or bottom of box

Store in a cool dry place.

Store out of the reach and sight of young children.

GALLMED Ltd., Unit 22 Bulrushes Farm, Coombe Hill Road, East Grinstead, West Sussex, RH19 4LZ, United Kingdom,

European Patent pending: EP11156006.6

GALLMET® is a tested product by international WESSLING laboratory (microbiology, contaminants, toxic substances, heavy metals, radioactivity, performance-enhancing drugs, allergy: lactose, gluten, casein). You can find the results of the tests on our website.

We provide the following information for making a choice between GALLMET®-M and GALLMET®-N. Both products contain bile acids in similar quantities but GALLMET®-M contains herbs as well. Herbs complement the bile acids but some people might react unfavourably to herbs. For those sensitive to the herbs in GALLMET®-M, we recommend the product GALLMET®-N. We recommend you use one of the products for 2-4 weeks, then the other and continue taking the one that gave a better effect or feeling.

The two products may be effective to a different degree depending on the user's individual state of health, sensitivity and reaction. It is not possible to exactly predict this in advance but the digestive effects of the two products are similar.

**GALLMET®-N Natural source bile acids to maintain healthy digestive function
